

SUGGESTED REPLY

STAT
Dear

This is in response to your letter of February 21, 1968, concerning the Central Intelligence Agency. I am enclosing a pamphlet which briefly describes the origins and functions of the CIA and answers some of your questions.

The balance of your questions do not lend themselves to the brief reply possible by letter, and I would recommend that you read Lyman Kirkpatrick's "The Real CIA," as well as Harry Howe Ransom's "Central Intelligence and National Security."

In addition to the substantive content of these books, the Ransom book contains an extensive bibliography should you desire to pursue your studies further.
